Power Indicator	● ○ ○ ○ ○	● ● ○ ○ ○	● ● ● ○ ○	● ● ● ●
Battery Status	≤25%	25% ~ 50%	50% ~ 75%	75% ~ 100%

Charge your phone or tablet

- Connect your phone or other portable device to the Power Bank using included USB cable or your original USB charger cable.
- The Power Bank will start charging your device automatically and stop once either your device is fully charged or the power bank is discharged.

Recharge your Power Bank

- Connect your Power Bank to your USB charger using included USB cable or your phone's original cable.
- During charging the LEDs will flash to show charging status.
- When charging is complete all four LED's will be permanently on.

 To preserve battery lifespan, use and recharge the Power Bank at least once every 4 months.

 To give your Power Bank fastest, safest recharge, use an ANOBIK USB charger
